LEAVES
ROOTED CUTTINGS
SMALL PLANTS

PAULINE KUNTZ
ROUTE 4
WINTERSSET, IOWA

Rooted cuttings are clumps of small plants grown from leaves. In cases where the mother leaf is retarding growth of the clump it will be removed, but most of them will be intact. Small plants ready for potting may occasionally be substituted for rooted cuttings. Minimum order \$3. Add 50¢ postage on all leaf orders under \$7.50. Add 75¢ for packing and postage on all rooted cutting or combination orders. Iowa customers add sales tax which will probably be 2% after July 1, 1957. All orders sent by Special Handling. If Special Delivery or Air Mail is desired please add sufficient extra postage to cover. Any extra will be refunded. Please list a few substitutes, as some of the newer things are limited. I will choose free cuttings from your list of substitutes for each order.

Large blooming plants for sale at my home which may be found by following Highway #92 for 6 miles west of Winterset, then 2½ miles north on crushed rock road. Visitors welcome, preferably by appointment. If correspondence is desired please enclose stamped, self-addressed envelope or card. For information on culture of African Violets send 10¢ to University of Illinois, Agriculture Dept. Information Office, Urbana, Illinois and ask for circular #695.
